- Up To 140 Hours Of Light On One Charge
- Warm & Dimmable
- Durable & Waterproof
- Charge Wirelessly
- Control From A Distance
- Built For Life

UP TO 140 HOURS OF LIGHT ON ONE CHARGE

We like to squeeze as many hours of light out of our little lamps as we can. With heavy use, you therefore only need to recharge them once a week.

CHARGE WIRELESSLY

Humble lamps can also be charged wirelessly, just like a phone. We even developed special chargers so you can easily charge them in groups.

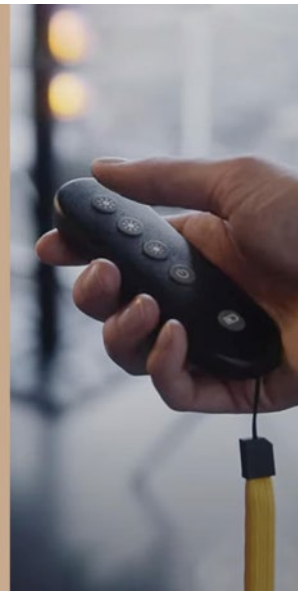

WARM AND DIMMABLE

For us, cosiness is our number one priority. That is why our lamps have a warm, comforting colour temperature and are dimmable in 3 settings.

CONTROL FROM A DISTANCE

All lamps within a radius of 10 metres can be controlled simultaneously with the humble remote. Our latest smart lamps can even be controlled with your phone.

DURABLE AND WATERPROOF

Our lamps have silicone sealing seals and are IP65 certified for outdoor use. We even created impact-resistant acrylic bulbs and shades for heavy-duty handling.

BUILT FOR LIFE

In the design process we took extra care to make all parts easily replaceable. Accidents happen, but don't worry. We have spare parts in stock and will get them to you asap.

HUMBLE ONE TABLE LIGHTS

Item	Description	Image	Price
DN956	Humble One Walnut Table Light 19.5 x 8.5cm		£111.55
