Designed to achieve the best performance in professional cooking...

INOX PRO cookware, made of high-quality stainless steel, guarantees better thermal efficiency. Its diffusing base spreads heat to the walls quickly and evenly.

Its handles are specially designed to ensure the safety of kitchen staff. Its manufacture, from tinted stainless steel rods, and its ultra-resistant anchoring system to the body make them capable of supporting weights of up to 500 kg.

- Suitable for use with Induction, Gas, Vitro and Electric cooking
- Specially designed to achieve the best performance in professional cooking
- Material 18/10 stainless steel
- Radius specially designed for easy and fast cleaning
- Quality: Uniform satin polish on inner and outer of all models
- Induction: sandwich bottom (Stainless/Steel - Aluminium - Stainless/Steel)
- Control: Handcrafted unit, every unit quality checked
- Unique: Origin identification and type of cooking system
- Efficient: Lids designed to save energy
- Solid and robust: Stainless Steel wire handles are ultra-resistant
- Safety: Specially welded handles
