

QUALITY TABLEWARE SINCE 1961

2018 COLLECTION

Ditch your disposables and make a difference

The BBC reported that it is likely that about 10 million tonnes of plastic currently ends up in the oceans each year.

Harfield want to help you make a difference by encouraging the use of our 100% recyclable polycarbonate tableware over the use of disposables and non-recyclable plastics such as melamine. Contact us to find out more about our recycling service.

Help save the
environment and
save money

Take a look at some of
our favourite polycarbonate
products to help you
make a difference...

020 200ml (7oz) Tumbler

Did you know our 200ml fluted tumbler lasts an average of 5 or more years if washed correctly (page 28)

009 280ml Beaker with Handle

WELCOME TO OUR 2018 CATALOGUE COLLECTION

Over the last 56 years, Harfield have been the UK's leading manufacturer of polycarbonate tableware. We supply education, healthcare, early years, hotels, restaurants, bars and clubs with our range of world class virtually unbreakable products. By working very closely with our customers and end users, we continue to offer an enviable collection of tableware and trays that meet your needs.

Last year we introduced the Roltex trays, tableware and barware to our range to provide an even wider collection of products that offer the very highest quality, innovation and value for money. This year we are delighted to announce an extension of our relationship with Roltex to include August Lundh, Sweden's leading manufacturer of plastic tableware. We have gone a little further too in that we have formalised our relationship and have formed a marketing group called EPIQ (European Producers, Innovation and Quality).

Our focus is to ensure that we continue to offer you the very highest quality products, with the very best service. Innovation will be at the core of everything we do and our products are designed to help you deliver the service to your customers without compromise.

Please take a look through our catalogue. You will find old favourites and new products designed to delight. As part of our wider partner network, we have access to many products. If the item you need is not listed, then please do not hesitate to contact us and we will endeavour to source the item for you.

Follow us socially...

TRAYS

Stock Lines	44
Personalise Your Trays	52
Non Stock Lines	53

Whatever tray you may need, Harfield has the tray for you. Choose from our **stock trays**, which are available for next day delivery or our **non-stock lines**, which have a short lead time of just 6-8 weeks. Minimum order will apply to non-stock lines, please contact us for further information.

Our trays can also be personalised with your logo, strapline or images to make them your own. Also look out for information on adding anti-slip to your tray choice.

We offer an anti-breakage warranty (subject to correct use) on most of our trays. This has been highlighted in each section.

For any questions, please do not hesitate to contact our friendly sales team on **+44 (0)161 477 5678**.

HARFIELD TRAYS STOCK LINES

LAMINATED TRAYS STOCK LINES

roltex®

The laminated tray has been developed for those who are looking for style and presentation. It is made out of a powerful layered structure of fibre paper and resin. The double laminated finish provides a scratch resistant surface. A perfect solution to show off your company identity in style. Other size options are available (please see page 56-57) lead time on non stock lines would be approx 6-8 weeks.

All laminated trays can have an anti-slip coating except the 367 Mini Trays. Please request anti-slip at the time of ordering.

Features

- Scratch resistant and low maintenance surface
- Perfect weight for ease of use
- Easily customised front and back
- Anti-slip coating available
- Stack when dry
- Choose from standard or custom designs/colours.

Laminated trays are frequently used by:

- Schools
- Restaurants
- Institutions

The polyester tray is sturdy and heat resistant which is why every time it comes out of the dishwasher, it looks like new. The tray gets its high quality and strength thanks to the 27% of fibreglass that is added to the polyester. You can count on the power of this serving tray. Without any doubt! Other size options available (please see page 58-59). Lead time on non-stock lines is approx. 6-8 weeks.

Features

- Polyester with 27% fibreglass
- Dishwasher safe
- Warp resistant
- -50°C to +140°C
- Anti-breakage warranty (Smart Polyester 3 years, Polyester 5 years)
- Choose from standard or custom colours

PERSONALISE YOUR TRAYS

Want a tray with your own logo or design?
Do you have a unique idea for your own tray?

Anything is possible with Harfield. Contact us to make your idea or concept become a reality on **+44 (0)161 477 5678**.

Anti-slip

An anti-slip layer can be added to most Laminate, Earth and some Polyester trays. Even your personalised trays can have an anti-slip layer. For the very best appearance we recommend dark tray colours when choosing an anti-slip option for a laminated tray.

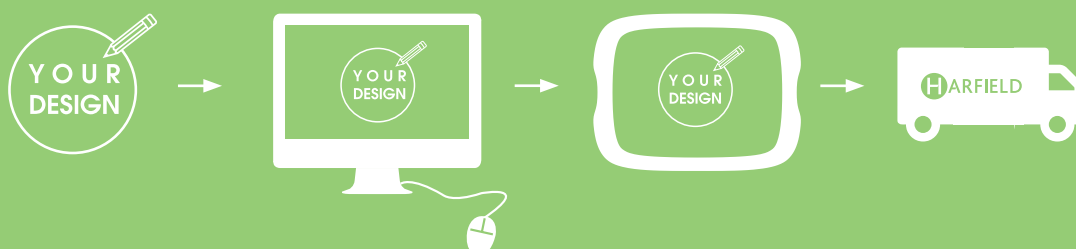

Logo or Design

- ✓ Illustrator
- ✓ Vectorial eps
- ✓ PDF

Image or Design

- ✓ TIFF, JPG or PNG
- ✓ Include your fonts
- ✓ 300 DPI (dots per inch)

1. Send your logo, design or image.
2. You receive a digital example in approximately 72 hours.
3. You can order a sample (optional). A small charge will apply.
4. Receive your personalised trays in approximately 6-8 weeks.

Due to the nature of the printing process, it may not always be possible to produce a perfect colour match. Again, due to the above process we will always quote a delivered quantity of +/- 10%. So, for example if you order 100 trays you may receive 100, 90 or 110 and you will be invoiced for the amount produced. By placing your order, you accept these terms.

Please note that the personalisation service above applies to Roltex trays.
For personalisation of Harfield products, please call us for more details on **+44 (0)161 477 5678**.

The Harfield trowels return in new fabulous colours! Teach children about growing their own food or work your way to wellbeing with these lightweight, colourful trowels!

PIN MBL AGR RED

ANTIBACTERIAL

Harfield's Biomaster protected tableware range is a response to a growing need to do more to tackle disease-causing bacteria in hospitals, nursing and care homes and other catering environments where infection control is vital.

What is Biomaster?

Permanent product protection against harmful bacteria, fungi and moulds.

How effective is Biomaster?

Very. Biomaster is proven to inhibit the growth of bacteria by up to 99.99%.

Is Biomaster safe?

Yes. It is based on silver ion technology, recognised for centuries with no harmful effects. Biomaster is used in medical, food and water applications.

How long is Biomaster effective for?

Biomaster is effective for the intended lifetime of the product it is added to. It is built into the product and does not wear off or leach out.

How does Biomaster work?

1

Biomaster binds to the cell wall disrupting growth

2

The Biomaster ions interfere with enzyme production stopping the cell producing energy

3

Biomaster interrupts the cell's DNA, preventing replication

069 Antibacterial 1.1 litre Jug

Antibacterial 1.1 Litre (2 pint) clear jug with a blue tint. Ideal for serving drinks and hot liquids. Shown with an optional lid (070).

CLE

090 Antibacterial 750ml Graduated Jug

Care & Maintenance

ROLTEX TRAYS & S-PLANKS

Cleaning Instructions

Laminated Melamine, Earth Tray and Anti-slip Trays:

For the best hygiene results, we recommend that you always wash new trays before their initial use.

S-Planks and Polyester Trays:

As a matter of hygiene and safety, please always wash any new polyester trays and S-Planks three times before first use. Washing-up is one of the occasions when trays and S-Planks can be damaged. Even in water, the surfaces can become scratched if rubbed against each other with force. It is best to avoid putting too many trays in the water at once. It is perfectly safe to wash your trays in an automatic dishwasher. As soon as the water has drained away, there should be an immediate rinse cycle to flush away deposits of detergent which will form a film if allowed to dry.

Tea and coffee stains can be removed with bicarbonate of soda, and silverware cleaner will remove pencil marks caused by minute deposits of metal from cutlery. Abrasives and harsh scourers should never be used.

Storing

All Laminated Melamine, Earth and Anti-slip Trays should always be completely dry before stacking.

All trays and S-Planks are subject to abrasion from repeated handling and stacking. We recommend that you stack no more than one hundred items together, one on top of another. The storage surface should be perfectly flat to avoid warping of your trays.

To avoid scratching your trays, they should not be slid out from the bottom of a stack - always lift them out from the top.

HARFIELD POLYCARBONATE TABLEWARE

Harfield polycarbonate products will give outstanding service providing the following points are observed:

- Never place the tableware near or on direct heat. For instance, do not put inside or on electric or gas cookers.
- Warming cupboards are usually safe for warming polycarbonate as long as they have no hot spots and do not exceed 85°C. Avoid warming for more than 60 minutes.
- Harfield polycarbonate tableware is microwave safe for reheating, but not for cooking food.

Do not use bleach or abrasives of any kind i.e. scouring pads, scourers, cleaning powders or liquids etc.

Cleaning Instructions

- Harfield polycarbonate tableware is dishwasher safe and suited to hand washing and sterilising sinks. Sterilising sinks should not exceed 85°C.
- Maximum dishwasher temperatures should be 60°C - 65°C for the wash and 70°C - 85°C for the rinse. Higher temperatures may cause deterioration of the material.
- Some dishwasher detergents/rinse aids may cause stress cracking to polycarbonate tableware.
- For information on specific detergents please contact your detergent supplier or manufacturer.

- Washing in hot soapy water should prevent any build up of discolouration.
- Milton Sterilising Fluid may be used to remove discolouration.
- Please note that our polypropylene trays are not suitable to be washed in the dishwasher.
- After washing, rinse well to remove all detergent residue.

It is essential that your detergent and rinse aids are compatible with polycarbonate and that the correct dosages are used. Using too much or leaving tableware to soak for long periods can shorten the life of the product.

Hand wash detergents

Do not use bactericidal detergents when washing polycarbonate tableware as this may cause deterioration of the material. Always check suitability of the hand wash detergent with the detergent manufacturer.

Antibacterial tableware

Please wash thoroughly before use to ensure full effectiveness of this product.

OVEN2TABLEWARE

O2T is a new Oven to Tableware range made from a high performance plastic suitable for cooking, steaming, serving and freezing. With its excellent resistance to sudden extremes of temperature, O2T is also suited to blast freezing/ chilling. Operating temperatures: Min -40°C to Max +220°C.

The Do's and Don'ts of Heating/Cooking/ Baking With Your O2T

- Oven safe and Microwave safe to maximum + 220°C.
- Not suited for use on induction or electric hobs, grills or direct flame of gas ovens as temperatures may exceed the maximum recommended.
- Can be used on heated surfaces as long as 220°C is not exceeded. **IMPORTANT** Do not overheat when in direct contact with hot surfaces.

Handling

- O2T containers are robust and chip resistant, but are not unbreakable. Avoid dropping O2T containers on their rim, especially when full and removing from the freezer.
- O2T warms up and cools down rapidly, so products may be hand held within minutes of removing from the oven and transferring to service.
- Avoid use of sharp metal knives which may result in surface scratches on your O2T oven to tableware. Use of a non metal utensil is recommended for portioning and serving food.
- O2T Gastronorm Bases, Lids and OvenDishes may be stacked to save space.
- Appropriate food content / date labels can be used without leaving residue.

Cleaning

O2T has a naturally non stick surface and should make cleaning easier with basic care:

- Dishwasher safe : do not exceed maximum temperatures Wash 65°C, Rinse 85°C.
- Hand wash and Sterilising Sink safe to maximum 85°C.
- Do not use scourers, abrasive or caustic agents or sharp cleaning implements which may damage the surface.
- O2T has good detergent resistance. The following detergents / rinse aids / sanitisers have been tested for compatibility at dosages recommended by the manufacturer. Always check detergent compatibility and correct dosages with your detergent supplier.
 - Suma Alu L10
 - Suma Rinse A5 and Suma Crystal A8
 - Suma Bac D10
 - Suma Linos L6.8
 - Revoflow Detergent P1
 - Suma Shine K2
- Avoid contact with strong acids.
- Some food products with a high sugar content (approx. 10% or more) may require a little extra care when cleaning due to potential surface food deposits. Do not use scourers to remove.

DELIVERY & RETURNS

At Harfield we are proud of the unprecedented, high levels of service that we extend to our customers. Our Sales Office is open from 8.30am to 4.00pm Monday to Friday.

Delivery

We aim to deliver on the next business day for all orders placed before 2.00pm. Orders requiring palletised delivery, booking in, to non-UK addresses or out of stock products may take longer. Please speak to our sales office for more information.

Returns

Should you need to return any items, we will give you a full refund if we receive the unused goods in a perfect resalable condition, within 14 days of your purchase. Please speak to our sales team for more information.

Please do not hesitate to contact us for specific delivery requirements.
