ALAN AND DOMINIQUE VAVRO

After their many customized projects for internationally recognized restaurants, and for tableware market leaders Villeroy & Boch, WNK and RAK Porcelain Dominique and Alain Vavro lend their classic and contemporary spirit to Ariane Fine Porcelain.

The Vavros also work closely with important figures in the food and beverage industry including the late 3 star Michelin chef Paul Bocuse, and wine specialists such as Georges Duboeuf.

NILO GIOACCHINI

Nilo Gioacchini's work touches various product sectors and is characterized by a methodological approach a concrete, pragmatic attitude to projects free from any conventionalism in terms of specialization or trends.

Through his 35 years of professional activity he has worked with many renowned Italian and international companies and has received considerable international recognition through his active participation in important national and international trade shows including the "National Mobile Fair Competition" in Trieste the Bayer Italia Special Award and Abet Print Award.

GEMMA BERNAL

Gemma has designed almost all her life, and all kinds of products. She has always focused on those products that are intended for use by people. Live the profession of designer with a determined attitude towards life and everything that surrounds it. Observe, Interiorize and Propose. All the circumstances that become when living in the Mediterranean produce the spark, light and creativity that appear in her proposals.

The closeness to the chefs, the needs of use and service in their gastronomic proposals, has led her to collaborate with different international companies, such as Ariane. She believes that the success of a product depends on many people and circumstances and that the design is just one of them.

AIRAIN COLLECTION

Our Airain Collection is best represented by the naturally occurring phenomenon of a volcano that erupts violently into the icy coldness of an ocean, creating a contrast within its very self. Just like this natural occurrence creates strong metals, the Airain Collection is the result of metallic color mixed with the whiteness of porcelain. This combination of colors makes it usable in multiple seasons. The lining itself is a 100% microwave and dishwasher safe, making it the excellent choice for the hotel and catering industry.

JAVEIL COLLECTION

The world is a beautiful place, and one of the things that gives us the chance to appreciate its beauty is our sense of sight. It lets us truly appreciate colors, and in terms of food, lets us name the unique spices that adorn each type of food. The reactive glaze color palette of the Javeil Collection is a journey through extraordinary places where all our senses are awakened.

JAVEIL

cinnamon

The color of this collection speaks out, indicating spiciness and savory foods that leave a taste of deliciousness in the mouth.

JAVEIL

ash

The simplest of the Javeil colors, this collection has a clean and modern look that complements food of all kinds.

JAVEIL

sea green

Similar to the body of water it is named after, it is quite easy to get lost in the vibrant color of this particular porcelain tableware collection.

JAVEIL

corail

A rustic coral themed collection allows the trendiest of restaurants to showcase their food.

JAVEIL

velvet

This particular color fits in both a bright and dark themed tableware setting, showing that a single color other than white is capable of doing so elegantly.

JAVEIL

jade

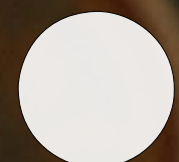

This is similar to the other colors in the Javeil collection, in that it can be encapsulated in a single word – trendy.

MOVING fast

This collection brings to mind a streak of lightning silver that breaks the silence during a summer night, with our white porcelain providing an excellent backdrop for a platinum line.

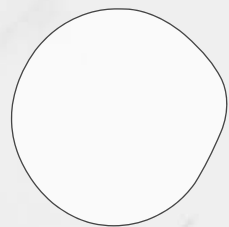

MOVING

slow

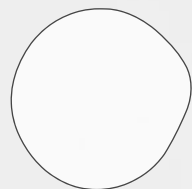

This brings to mind the image of a lit bonfire, where everyone sits down on picnic benches and wrap their blankets around each other. The fire pit is right in the middle, while everyone sits around it and watches the sunset. An atmosphere like this in a restaurant that has a great view of the setting sun would provide an excellent ambience.

PEEL COLLECTION

As part of the new 2020 collection, the Peel Collection brings to mind the cracked glass effect wrapped around the bark of a magical tree. The White, Black and Grey can be used in combination with each other or separately, but the results are the same – a personification of elegance and grace.

IKON

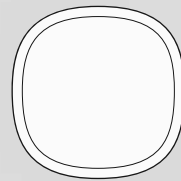

designed by **Gemma Bernal**

IKON shares the idea of multiple proportions, with a simple geometry, although delicate. Its shapes are not circular or square. IKON solves the square gently. There are no right angles inside to facilitate its use and cleaning. It does not pretend to surprise, but to be used in a pleasant way.

INGENIOUS TECHNOLOGY

Behind the subtle designs and durability lays a robust technology that combines premium raw materials like kaolin, quartz and feldspar and optimizes the usage of these raw materials to extract their best properties. The combination of modern state-of-the-art manufacturing facilities, and up-to-date German machineries, produces exceptionally durable porcelain dinnerware items, maintaining a value for money proposition.

INTERNATIONAL DISTRIBUTION

Accessibility is the key to a great brand. We live up to this expectation by deploying an easy reach distribution strategy that comprises strategic tie-ups with leading hotel suppliers and industry players from all over the world. You'd find us in all leading hospitality procurement hubs.

DESIGN AND FUNCTIONALITY

Service with a personal touch plays an integral part in the world of hospitality. We offer the possibility for personalization according to all our clients' company identities and special requirements. The result is modern designs combined with individualism.

Ariane Fine Porcelain offers a flexible approach to customized decorations and production lines with personalized décor, shapes, patterns, décor variations and custom-made logos to its customers in order to meet all their diverse requirements.

COMPETENT SERVICES

At Ariane Fine Porcelain an effective and clear distribution & replacement structure has been put in place to give an effective delivery and after-sales service. In addition to ensuring effective product purchase and delivery, we offer a 5-year Rim-Chip warranty to all articles in our heavy-duty range such as Prime.

CERTIFICATIONS

Ariane Fine Porcelain successfully meets stringent global quality standards such as physical tests certification from SFC France and quality tests (dishwasher safe, edge-chip resistant, microwave & oven safe, steel/metal marking test) certifications by LUCIDEON, UK for our superior quality porcelain tableware that live up to world-class international standards.

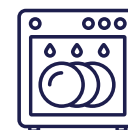

Ariane Fine Porcelain has certified the ISO 9001:2008 for quality management and SA-8000:2008 for social accountability by TÜV, Germany.

Ariane Fine Porcelain products have approved with the Vegetarian Society of UK for being 100% vegetarian. Every article of table ware contains no bone ash. Ariane Fine Porcelain thereby provides an absolutely hygienic vegetarian solution to markets that are exclusively vegetarian. It has also certified by Halal Committee, Mumbai, India.

QUALITY WITHOUT COMPROMISE

Hospitality is a demanding industry that has specific, ever-evolving needs. The unique blend and amalgamation of raw materials, breakthrough technology and a quality assurance team, guarantees that all Ariane Fine Porcelain items are kept in line with these requirements.

DISHWASHER SAFE

Our porcelain is fired at high temperatures which making it highly resistant to repeated dish washing cycles at high temperature.

MICROWAVE & SALAMANDER SAFE

Ariane Porcelain products are both microwave and salamander safe due to their heat resistant layer of glaze. (Other than products with all kind of decorations including with precious metals like Gold, Platinum etc).

SMOOTH APPEARANCE

The special glaze fired at high temperatures not only gives all our porcelain a smooth, clean finish, but also ensures that it becomes completely non-porous, guaranteeing higher levels of hygiene.

ABRASION PROOF

The special glazing fired under high temperature ensures strong resistance to scratches or abrasions.

LIMITED DANGER IN CASE OF BREAKAGE

The products are designed to avoid breakage hazards, as they break cleanly into safely manageable pieces.

THERMAL SHOCK PROOF

Ariane Fine Porcelain not only retains heat to keep the food warm, but also is resistant to variations in temperature.

PERFECT FUNCTIONALITY

All our designs focus on absolute functionality. Most items are stackable including cups, bowls and platters, which enables the most efficient use of space.

HIGH CHIP RESISTANCE

The special high alumina material used by Ariane Fine Porcelain offers strength, durability and resistance against chipping to critical points like edges of cups, plates and handles.
