SUSTAINABILITY

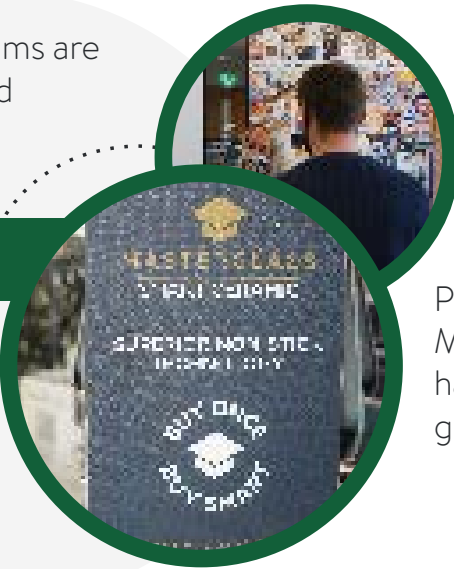

OUR FUTURE STARTS HERE

It's bigger than us. Bigger than our market. Bigger than any challenge yet. But the world is working together, and here's how we are playing our part, because change is what we do.

Our product development teams are already working effectively and commercially from our eco design checklist.

PRODUCT

We currently provide full guidance on looking after your products and have lengthy guarantees for a number of products.

Products in our MasterClass brand have lifetime guarantees.

Working together - we've made sure the polybags we use in our shipping packaging are 100% recyclable to make it easier for you.

We currently recycle 91.5% of our operational waste at our Hub HQ.

PROCESS

We aim for 100% of our packaging to be fully recyclable by the end of 2023.

EARTHLY

A NEW PARTNER

It is our great pleasure to have partnered with Earthly, a science-backed carbon removal solution, to invest in the fight against climate change.

We'll be absorbing our shipping carbon emissions as well as supporting climate-change-reversing, carbon-busting projects including mangrove planting in Madagascar.

In 2021 we became climate positive on our shipping by offsetting 3150 tonnes of CO₂ and we'll continue this into 2022.

This is only the beginning. We've taken our first steps to being the sustainable business we want to be, laid some solid foundations, and we're in the best position we've ever been to make it happen. Thanks for being with us from the start.

SERVING CAFÉ CULTURE SINCE 1967

IMMERSE YOURSELF IN A RICH HISTORY

In 1967 we created our first French Press style coffee maker. A whole lot of love went into that first product and it's grown ever since.

People talk about coffee, over coffee, wanting and needing coffee. We're all about coffee. And tea too, for that matter.

Built to last, innovative and exciting, our products will never stop getting better. Because we all love a good brew.

THIS IS OUR STORY

Each London Pottery collection has been designed by celebrated ceramist David Birch, with features developed over years from drip free spouts to ceramic filters and lids designed to stay put whilst pouring.

We know how to make a better brew which is why our teapots are desired around the world.

POTTY ABOUT TEA!

In the UK we brew over 100 million cups of tea or herbal infusions every day.

London Pottery ticks the box for mindful brews, everyday cuppas and infusion friendly brewing.

UNIQUELY DECORATIVE AND WONDERFULLY GIFTABLE

We have six new designs from London Pottery.

Four of these designs feature beautiful woodland animals inspired by whimsical folk style illustrations. These characters are intended to be collected.

Then there are two Chinoiserie style floral teapots - these are inspired by 18th-century Chinoiserie paintings, which have been painted in modern bright, and joyous colourways. These striking designs will add a pop of colour, and intrigue to any table.

Designed for those who have a passion for food, expect and need to have the best. Taylor is all about stretching the boundaries of consumer expectation, developing products which are centred on improved use and coupled as ever with the Taylor accuracy.

SCALES

TOUCHLESS TARE: Return the scale to zero with a simple wave of the hand over the Touchless Tare sensor. Perfect when you need to use a bowl or container to weigh multiple items together. No need to wash your hands and no mess from flour covered fingers!

DUAL LIQUID MEASURE: Flexibility to measure liquids in both ml or fl.oz so recipes can be followed precisely.

THERMOMETERS

TAPERED PROBES: Tapered stainless steel thermometer probes step down at the tip, leaving smaller holes which help retain the juices in the meat and maintain the appealing appearance and presentation of the meal.

ACCURACY FIRST: Driven by the exacting requirements of commercial caterers, ultra-high precision coils feature in all Taylor Pro dial thermometers.

TIMERS

TIMERS FOR ALL: A range of timers designed for ease of use and accessibility for everyone.

Extra loud alarms for the hard of hearing and noisy environments, light signals to grab the attention and multiple stand, magnet and clip options for ease of positioning.
