STACKABLE UNIT

Panasonic SCV-2 guarantees maximum flexibility as it easily fits on a small worktop. In addition you can double your capability thanks to the stackable option which allows you to add a second oven without using any additional working space.

USER FRIENDLY & VENTLESS COOKING

Touch display for easy and fast use. Ventless cooking operation thanks to the built-in catalytic converter. Easy-to-clean inside cavity to reduce cleaning time and simplify maintenance.

MENU FLEXIBILITY

The SCV-2 SD Card allows rapid menu changes and updates, for up to 999 cooking menu settings. In addition user's own food images can be loaded on to the control panel to be used as menu buttons.

EFFICIENT PERFORMANCES

Increase your customer satisfaction whilst reducing wait time. The SCV-2 speed convection oven ensures great results with minimum time, guaranteeing customers' satisfaction and increased profitability.

INVERTER

Panasonic exclusive Twin Inverter technology, cooks food evenly with no cold spot, always providing optimum cooking results
