

Salamander Grill

The SEM600PDS

The SEM600PDS puts versatile powerful performance at the heart of your kitchen. Ideal for grilling and finishing, our precise height adjustment system allows you to bring the right heat to your food giving quality results on time every time. Featuring our clean efficient vitro ceramic infrared technology which minimises smoke and odours, the speed of cooking and the rapid heat up times (400°C in under 30 seconds !) save on energy consumption without compromising on performance.

Can be operated with standard on/off control or by using the Plate Detection System which automatically turns the elements on when a dish is placed beneath the grill bringing even greater energy efficiency.

Features: 2 cooking zones.

|-------------------------------|-------------------------|
| Weight | 45kg |
| Dimensions (mm) | 600 x 590 x 590 |
| Element Type | Infrared Ceramic |
| Power | 3Kw |
| Power Connection | 13amp plug |
| Cooking Grid Area (mm) | 600 x 400 |

Salamander Grill

The SEM600PDS

Energy Efficiency

A traditional hard incoloy element salamander grill has a heat up time of approximately 10 minutes. The SEM600PDS has a heat up time to 400°C of under 30 seconds! Therefore the SEM600PDS will use 500W less electricity simply reaching cooking temperature, saving 6.5 pence against your electricity bill;

3Kwh / 60minutes x 10 minutes = 500W energy saving = approx £0.065 cost saving

The SEM600PDS saves energy through its rapid heat up time, thereby not being required to be left on all day awaiting use. The SEM600PDS is turned on only when required, reducing energy waste, reducing component wear and bringing real savings against your energy costs. If the grill was only actually cooking for half the day the SEM600PDS will save over £13 per week

12 hour day x 3Kw/h = 36Kwh @ 16 pence per Kwh = £5.76 per day
Divide by 2 = £2.88 saving per day x 7 day week = weekly saving of £20.16

2021 MRP = £1,995 divided by £20.16 = 100 week pay back.

On this basis the SEM600PDS pays for itself in 2 years!
